

OPERATIONS ADVISORY NOTICE (OAN)		 Transport Malta Flight Operations Inspectorate Civil Aviation Directorate Transport Malta Malta Transport Centre Pantar Road Lija LJA 2021 Malta
OAN Number: 01/25	Issue Date: 17 February 2025	
Subject: TM-CAD Group Operations Policy		

The CAD would like to inform those Operators who form part of a group of companies holding more than one AOC, that they may request to apply relevant measures contained in the “Guidance for the oversight of group operations” Issue 02 published by EASA in February 2024.

Prior to applying, operators must provide the CAD with a copy of a management manual signed by the Accountable Managers of the participating AOCs outlining the internal processes that would lead to compliance with all regulatory requirements, and which will ensure safe and efficient interoperability of crew. The CAD will provide further guidance on the expected content of the management manual to standardize the processes.

The CAD will assess each request in its own merits and communicate which credits can be applied.

New AOC applicants having an already established AOC may also benefit from applying for interoperability within the group and the CAD may validate some verifications conducted by another Competent authority. Any crediting will be based on the collection and review of the operators' records and certification for the other AOC.

Attached to this notice as Supplemental Document the relevant EASA document.

This OAN repeals OAN 06/22 Rev. 3 dated 21 February 2023 bearing the same title.

Capt. Stefano Banti
Head of Operations
TM - CAD
