

# Application and Report Form for SP(A) Class Rating (Sea) /Skill test / Proficiency Check

issued under the Commission Regulation (EU) No 1178/2011 of 3 November 2011 as amended

Transport Malta

## Civil Aviation Directorate

Transport Malta-Civil Aviation Directorate, Malta Transport Centre, Pantar Road, Lija LJA 2021 Malta. Tel: +356 2555 5000 [cadpel.tm@transport.gov.mt](mailto:cadpel.tm@transport.gov.mt) [www.transport.gov.mt](http://www.transport.gov.mt)

**WARNING TO ALL APPLICANTS** – Any false statement, misrepresentation or concealment of material fact on this form or any document presented in support of this application may be grounds for criminal prosecution.

**Data Protection Notice** - All data collected in this form is processed in accordance with the Privacy Laws that include General Data Protection Regulation (EU) 2016/679 and Chapter 586 of the Laws of Malta (Data Protection Act). The data provided may be granted to other Public Authorities and/or Government Departments as required and permitted by Maltese Law. Transport Malta of Triq Pantar, Lija, Malta LJA2021 is the data controller for the purpose of the privacy laws. The Privacy Notice attached with this application sets out the way in which personal information/data is collected and processed by Transport Malta, as well as the steps that are taken to protect such information.

**First Malta Part-FCL Licence:** If this is an application for the first Malta Part-FCL licence, in the Licence Number box insert the number on the Malta Medical Certificate.

## Application for SP(A) Class Rating (Sea)/ Skill test / Proficiency Check

Licence No.

### To be completed by applicant

### SEE SUBMISSION INSTRUCTIONS AT THE END OF THIS FORM

- SEP(Sea)       MEP (Sea)       SE Turboprop (Sea)
- SP OPS       MP OPS
- Skill test       Proficiency Check       Revalidation       Renewal
- Revalidation by experience (SEP[Sea]only) - Attach Appendix 1

**A. General**

1. Applicants for a skill test shall have received instruction in the same class or type of aircraft to be used in the test.
- 1a. Training in FFS in accordance with points 1b and 1c of this Section shall be complemented with take-off and landing training in a single-pilot aircraft operated in single-pilot or multi-pilot operations, or in a multi-pilot aircraft, as applicable, in accordance with point 17 of this Section, unless the training is completed in accordance with point FCL.730.A or constitutes training for cruise relief co-pilots in accordance with Section B, point 6(i), of this Appendix.
- 1b. The training for MPA and PL type ratings shall be conducted in an FFS or in a combination of FSTD(s) and FFS. The skill test or proficiency check for MPA and PL type ratings and the issue of an ATPL and an MPL, shall be conducted in an FFS, if available.
- 1c. The training, skill test or proficiency check for class or type ratings for SPA and helicopters shall be conducted in either of the following:
  - (a) an available and accessible FFS, or in a combination of such FFS and FSTD(s);
  - (b) a combination of FSTD(s) and the aircraft if an FFS is not available or accessible;
  - (c) the aircraft if no FSTD is available or accessible.
- 1d. By way of derogation from point 1c, the training, skill test or proficiency check for class or type ratings for non-complex SPA and for non-complex helicopters may be conducted in a combination of FSTD(s) and the aircraft even if an FFS is available and accessible.
- 1e. By way of derogation from point 1c, the training, skill test or proficiency check for any of the following may be conducted in accordance with points 1c(a), (b) or (c), irrespective of the availability and accessibility of FFS or FSTD:
  - (a) non-complex non-high-performance single-pilot aeroplanes;
  - (b) TMGs;
  - (c) non-complex helicopters for which the maximum certified seat configuration does not exceed five seats.
- 1f. If FSTDs are used during training, testing or checking, the suitability of the FSTDs used shall be verified against the applicable 'Table of functions and subjective tests' and the applicable 'Table of FSTD validation tests' contained in the primary reference document applicable for the device used. All restrictions and limitations indicated on the device's qualification certificate shall be considered.
2. Failure to achieve a pass in all sections of the test in two attempts will require further training.
3. There is no limit to the number of skill tests that may be attempted.

**CONTENT OF THE TRAINING, SKILL TEST/PROFICIENCY CHECK**

4. Unless otherwise determined in the operational suitability data established in accordance with Annex I (Part-21) to Regulation (EU) No 748/2012 (OSD), the syllabus of flight instruction, the skill test and the proficiency check shall comply with this Appendix. The syllabus, skill test and proficiency check may be reduced to give credit for previous experience on similar aircraft types, as determined in the OSD.
5. Except in the case of skill tests for the issue of an ATPL, when so defined in the OSD for the specific aircraft, credit may be given for skill test items common to other types or variants where the pilots are qualified.

**CONDUCT OF THE TEST/CHECK**

6. The examiner may choose between different skill test or proficiency check scenarios containing simulated relevant operations. Full-flight simulators and other training devices shall be used, as established in this Annex (Part-FCL).
7. During the proficiency check, the examiner shall verify that holders of the class or type rating maintain an adequate level of theoretical knowledge.
8. Should applicants choose to terminate a skill test for reasons considered inadequate by the examiner, they shall retake the entire skill test. If the test is terminated for reasons considered adequate by the examiner, only those sections not completed shall be tested in a further flight.
9. At the discretion of the examiner, any manoeuvre or procedure of the test may be repeated once by the applicants. The examiner may stop the test at any stage if it is considered that the applicants' demonstration of flying skill requires a complete retest.
10. Applicants shall be required to fly the aircraft from a position where the PIC or co-pilot functions, as relevant, can be performed. Under single-pilot conditions, the test shall be performed as if there was no other crew member present.
11. During preflight preparation for the test, applicants are required to determine power settings and speeds. Applicants shall indicate to the examiner the checks and duties carried out, including the identification of radio facilities. Checks shall be completed in accordance with the checklist for the aircraft on which the test is being taken and, if applicable, with the MCC concept. Performance data for take-off, approach and landing shall be calculated by applicants in compliance with the operations manual or flight manual for the aircraft used. Decision heights/altitudes, minimum descent heights/altitudes and missed approach point shall be agreed upon with the examiner.
12. The examiner shall take no part in the operation of the aircraft except where intervention is necessary in the interests of safety or to avoid unacceptable delay to other traffic.

**SPECIFIC REQUIREMENTS FOR THE TRAINING, SKILL TEST AND PROFICIENCY CHECK FOR TYPE RATINGS FOR MULTI-PILOT AIRCRAFT, FOR SINGLE-PILOT AIRCRAFT WHEN OPERATED IN MULTI-PILOT OPERATIONS, FOR THE MPL AND FOR THE ATPL**

13. The skill test for a multi-pilot aircraft or a single-pilot aircraft when operated in multi-pilot operations shall be performed in a multi-crew environment. Another applicant or another type rated qualified pilot may function as the second pilot. If an aircraft is used, the second pilot shall be the examiner or an instructor.
14. The applicant shall operate as PF during all sections of the skill test, except for abnormal and emergency procedures, which may be conducted as PF or PNF in accordance with MCC. The applicant for the initial issue of a multi-pilot aircraft type rating or ATPL shall also demonstrate the ability to act as PNF. The applicant may choose either the left hand or the right hand seat for the skill test if all items can be executed from the selected seat.
15. The following matters shall be specifically checked by the examiner for applicants for multi-pilot operations in a single-pilot aeroplane extending to the duties of a PIC, irrespective of whether the applicant acts as PF or PNF:
  - (a) management of crew cooperation;
  - (b) maintaining a general survey of the aircraft operation by appropriate supervision; and
  - (c) setting priorities and making decisions in accordance with safety aspects and relevant rules and regulations appropriate to the operational situation, including emergencies.
16. The test/check should be accomplished under IFR, if the IR rating is included, and as far as possible be accomplished in a simulated commercial air transport environment. An essential element to be checked is the ability to plan and conduct the flight from routine briefing material.
17. When their type rating course has included less than 2 hours of flight training in the aircraft, applicants shall, before or after the skill test, complete flight training in the aircraft.

Such approved flight training shall include take-off and landing manoeuvres and shall be performed by a qualified instructor under the responsibility of:

  - (a) an ATO; or
  - (b) an organisation holding an AOC issued in accordance with Annex III (Part-ORO) to Regulation (EU) No 965/2012 and specifically approved for such training; or
  - (c) the instructor, in cases where no aircraft flight training for SP aircraft at an ATO or AOC holder is approved, and the aircraft flight training was approved by the applicants' competent authority.

A certificate of completion of the type rating course including the flight training in the aircraft shall be forwarded to the competent authority before the new type rating is entered in the applicants' licence.

**B. Specific requirements for the aeroplane category**

**PASS MARKS**

In the case of single-pilot aeroplanes, with the exception of single-pilot high-performance complex aeroplanes, applicants shall pass all sections of the skill test or proficiency check. Failure in any item of a section will cause applicants to fail the entire section. If they fail only one section, they shall repeat only that section. Failure in more than one section will require applicants to repeat the entire test or check. Failure in any section in the case of a retest or recheck, including those sections that have been passed on a previous attempt, will require applicants to repeat the entire test or check again. For single-pilot multi-engine aeroplanes, Section 6 of the relevant test or check, addressing asymmetric flight, shall be passed.

**FLIGHT TEST TOLERANCE**

The applicant shall demonstrate the ability to:

- (a) operate the aeroplane within its limitations;
- (b) complete all manoeuvres with smoothness and accuracy;
- (c) exercise good judgement and airmanship;
- (d) apply aeronautical knowledge;
- (e) maintain control of the aeroplane at all times in such a manner that the successful outcome of a procedure or manoeuvre is always assured;
- (f) understand and apply crew coordination and incapacitation procedures, if applicable; and
- (g) communicate effectively with the other crew members, if applicable.

The following limits shall apply, corrected to make allowance for turbulent conditions and the handling qualities and performance of the aeroplane used:

<b>Height</b>	Generally	± 100 feet	<b>Tracking</b>	on radio aids	± 5°
	Starting a go-around at decision height	+ 50 feet/- 0 feet		For "angular" deviations	half scale deflection, azimuth and glide path (e.g. LPV, ILS, MLS, GLS)
	Minimum descent height/altitude	+ 50 feet/- 0 feet		2D (LNAV) and 3D (LNAV/VNAV) "linear" deviations	Cross track error/deviation shall normally be limited to ± ½ the RNP value associated with the procedure. Brief deviations from this standard up to a maximum of 1 time the RNP value are allowable.
<b>Heading</b>	all engines operating	± 5°		3D linear vertical deviations (e.g. RNP APCH (LNAV/VNAV) using BaroVNAV)	not more than - 75 feet below the vertical profile at any time, and not more than + 75 feet above the vertical profile at or below 1 000 feet above aerodrome level
	with simulated engine failure	± 10°			
<b>Speed</b>	all engines operating	± 5 knots			
	with simulated engine failure	+ 10 knots/- 5 knots			

**CONTENT OF THE TRAINING/SKILL TEST/PROFICIENCY CHECK**

5. Single-pilot aeroplanes, except for high performance complex aeroplanes

(a) The following symbols mean:

- P = Trained as PIC or co-pilot and as PF and PM
- OTD = Other training devices may be used for this exercise
- X = An FFS shall be used for this exercise; otherwise, an aeroplane shall be used if appropriate for the manoeuvre or procedure
- P# = The training shall be complemented by supervised aeroplane inspection

(b) The practical training shall be conducted at least at the training equipment level shown as (P), or may be conducted on any higher level of equipment shown by the arrow (---->).

The following abbreviations are used to indicate the training equipment used:

- A = aeroplane
- FFS = full-flight simulator
- FSTD = flight simulation training device

(c) The starred (\*) items of Section 3B and, for multi-engine, Section 6, shall be flown solely by reference to instruments if revalidation/renewal of an IR is included in the skill test or proficiency check. If the starred (\*) items are not flown solely by reference to instruments during the skill test or proficiency check, and when there is no crediting of IR privileges, the class or type rating will be restricted to VFR only.

(d) Section 3A shall be completed to revalidate a type or multi-engine class rating, VFR only, where the required experience of 10 route sectors within the previous 12 months has not been completed. Section 3A is not required if Section 3B is completed.

(e) Where the letter 'M' appears in the skill test or proficiency check column, this will indicate a mandatory exercise or a choice where more than one exercise appears.

(f) An FSTD shall be used for practical training for type or ME class ratings if they form part of an approved class or type rating course. The following considerations will apply to the approval of the course:

- (i) the qualification of the FSTD as set out in the relevant requirements of Annex VI (Part-ARA) and Annex VII (Part-ORA);
- (ii) the qualifications of the instructors;
- (iii) the amount of FSTD training provided on the course; and
- (iv) the qualifications and previous experience on similar types of the pilots under training.

(g) To exercise the privileges of a class or type rating in multi-pilot operations in accordance with point FCL.725(d) or (da), pilots that are already entitled to operate the relevant class or type of aeroplane in single-pilot operations shall meet the following conditions:

- (1) complete a bridge course containing manoeuvres and procedures including MCC as well as the exercises of Section 7 using threat and error management (TEM), CRM and human factors at an organisation that is specified in point FCL.725(d)(1)(i);
- (2) pass a proficiency check in multi-pilot operations.

(h) To exercise the privileges of a type rating in single-pilot operations in accordance with point FCL.725(d), pilots that are already entitled to operate the relevant type of aeroplane in multi-pilot operations shall be trained at an organisation that is specified in point FCL.725(d) (1)(i) and checked for the following additional manoeuvres and procedures in single-pilot operations:

- (i) for SE aeroplanes, 1.6, 4.5, 4.6, 5.2 and, if applicable, one approach from Section 3.B;
- (ii) for ME aeroplanes, 1.6, Section 6 and, if applicable, one approach from Section 3.B.

(i) Pilots that are entitled to exercise the privileges of a class or type rating in both single-pilot and multi-pilot operations in accordance with points (g) and (h) may maintain privileges for both forms of operation by completing either of the following:

- (i) two proficiency checks, one in single-pilot operations and one in multi-pilot operations;
- (ii) a proficiency check in multi-pilot operations in addition to the exercises referred to in points (h)(i) or (h)(ii), as applicable, in single-pilot operations.

Proficiency checks for the revalidation or renewal of class ratings shall always include the exercises referred to in points (h)(i) or (h)(ii), as applicable, in single-pilot operations.

(j) To remove a restriction to multi-pilot operations from a single-pilot aeroplane type rating in accordance with point FCL.725(d)(2), pilots shall comply with point (h)

(k) The training, testing and checking shall follow the table mentioned below.

- (1) Training at an ATO, testing and checking requirements for single-pilot privileges
- (2) Training at an ATO, testing and checking requirements for multi-pilot privileges
- (3) Training at an ATO, testing and checking requirements for pilots holding single-pilot privileges seeking multi-pilot privileges for the first time (bridge course)
- (4) Training at an ATO, testing and checking requirements for pilots holding multi-pilot privileges seeking single-pilot privileges for the first time (bridge course)
- (5) Training at an ATO and checking requirements for combined revalidation and renewal of single and multi-pilot privileges

(l) To establish or maintain PBN privileges, one approach shall be an RNP APCH. Where an RNP APCH is not practicable, it shall be performed in an appropriately equipped FSTD.

By way of derogation from the first paragraph, in cases where a proficiency check for revalidation of PBN privileges is performed in an aircraft or an FSTD representing that aircraft, which are not equipped for RNP APCH manoeuvres, the proficiency check may not include RNP APCH exercises. In such cases, the PBN privileges of the pilot shall not include RNP APCH. The restriction shall be lifted if the pilot has completed a proficiency check including an RNP APCH exercise for the relevant class or type.

## Revalidation SP SEP class (Sea) by Experience

### Appendix 1 - Complete if applicable

Licence No: \_\_\_\_\_

#### To be Completed by the Examiner

Name of Applicant: \_\_\_\_\_

SP SEP(sea)

#### Revalidation by Experience

I checked the applicant's logbook on \_\_\_\_\_ (date dd/mm/yyyy) and confirm that: within the **12 months preceding the expiry date of the rating**, the applicant completed at least:

- (a)  12 hours of flight time in the SP SEP (sea) class, including
- (b)  6 hours as PIC,
- (c)  12 TO and 12 Landings, and
- (d)  Refresher training of at least 1 hour total flight time in SEP(sea) with a flight instructor (FI) or a class rating instructor (CRI) who has selected flight exercises that allow the applicant to refresh their competence in safely operating the aircraft and applying normal, abnormal and emergency procedures on \_\_\_\_\_ (date)
- passed a class or type rating proficiency check or skill test, EBT practical assessment or assessment of competence in any other class or type of aeroplane on \_\_\_\_\_ (date).

#### **Complete for the revalidation of both SEP(land) and SEP (sea) class rating by experience. The applicant completed within 12 months preceding the expiry date of the rating.**

- 12 hours of flight time in SEP(land) or SEP(sea) [or a combination of both]
- 6 hours as PIC in SEP(land) or SEP(sea) [or a combination of both]
- 6 take-offs and 6 landings in SEP(land)
- 6 take-offs and 6 landings in SEP(sea)
- 1 hour PIC in SEP(land)
- 1 hour PIC in SEP(sea)
- Refresher training of at least 1 hour total flight time in SEP(land) or SEP(sea) or a combination of both with a flight instructor (FI) or a class rating instructor (CRI) who has selected flight exercises that allow the applicant to refresh their competence in safely operating the aircraft and applying normal, abnormal and emergency procedures on \_\_\_\_\_ (date/s); or

#### Licence Endorsement

I have revalidated the SP SEP (sea) class rating on the applicant's licence and it is now valid until \_\_\_\_\_ (2 years); or

I have revalidated both the SP SEP (sea) class rating which is valid to \_\_\_\_\_ and also the SP SEP (land) class rating on the applicant's licence and it is now valid until \_\_\_\_\_ (2 years)

Last, and First Name of Examiner: \_\_\_\_\_

Examiner Certificate number: \_\_\_\_\_

Signature of Examiner: \_\_\_\_\_ Date of Signature: \_\_\_\_\_

#### **Note:**

- This addendum is **Not** applicable for SP Single Engine Turbo-prop aeroplanes.
- For revalidation of single-engine turbo-prop class ratings applicants shall pass a proficiency check on the relevant class in accordance with Appendix 9 of Part-FCL with an examiner, within the 3 months preceding the expiry date of the rating.

## Data Protection Privacy Notice

Transport Malta of Triq Pantar, Lija, Malta LJA2021 is the Data Controller for the purpose of the Data Protection Act CAP. 586 and General Data Protection Regulation (EU) 2016/679 (GDPR). This Privacy Notice sets out the way in which we collect and process your Personal Information, as well as the steps we take to protect such information.

### 1. The information we collect and how we use it

- 1.1. From this application form Transport Malta collects different types of information which information is that required by Law and is used explicitly for your particular application. It is to be noted that if the required information is not provided the said application cannot be processed.
- 1.2. The primary purpose for collecting information is mainly to process the application for the service being applied for, however, your personal information may also be used for related purposes that amongst other include: sending notifications, renewal of licence/certificate after expiry period, and for the provision of information with regards to any legislative amendments which may affect the services offered to you.

### 2. To whom we disclose information

- 2.1. This information will be solely used for the reasons detailed above. However there may be cases where personal information is shared with the following third parties for reasons listed below:
  - Any third party offering assistance in providing the required service;
  - Any law enforcement body who may have any reasonable requirement to access your personal information;
  - Third party entities responsible for the data processing contracted by Transport Malta.

### 3. Data Subject Rights

- 3.1. With respect to your privacy rights, Transport Malta is obliged to provide you with reasonable access to the Personal Data that you have provided to us. Your other principal rights under data protection law are:
  - a. the right for information;
  - b. the right to access;
  - c. the right to rectification;
  - d. the right to erasure;
  - e. the right to restrict processing;
  - f. the right to object to processing;
  - g. the right to data portability;
  - h. the right to complain to a supervisory authority; and
  - i. the right to withdraw consent.
- 3.2. If you wish to access or amend any Personal Data we hold about you, or to request that we delete any information about you, you may contact us by sending a request to [dataprotection.tm@transport.gov.mt](mailto:dataprotection.tm@transport.gov.mt). We will acknowledge your request within seventy-two (72) hours and will do our utmost to handle it promptly. We will respond to these requests within a month, with a possibility to extend this period for particularly complex requests in accordance with Applicable Law.
- 3.3. At any time, you may object to the processing of your Personal Data, on legitimate grounds, except if otherwise permitted by applicable law.
- 3.4. In accordance with Applicable Law, we reserve the right to withhold personal data if disclosing it would adversely affect the rights and freedoms of others. Moreover, we reserve the right to charge a fee for complying with such requests if they are deemed manifestly unfounded or excessive.

### 4. Retention period

- 4.1. Personal data will be retained for not more than 3 months from date of application should the application not be submitted complete or is rejected.
- 4.2. Once the service related to your application is provided, we will retain your information for as long as needed to provide you with our service, or to comply with our legal obligations, resolve disputes and enforce our agreements.

### 5. Security

- 5.1. We take appropriate security measures to protect against loss, misuse and unauthorized access, alteration, disclosure, or destruction of your information. Additionally, steps will also be taken to ensure the ongoing confidentiality, integrity, availability, and resilience of systems and services processing personal information, and will restore the availability and access to information in a timely manner in the event of a physical or technical incident. All information gathered is kept confidential and is used solely for the purpose indicated herein.
- 5.2. If we learn of a security systems breach, we will inform you of the occurrence of the breach in accordance with applicable law.

### 6. Governing Law

All data collected in this form is processed in accordance with the Privacy Laws that include General Data Protection Regulation (EU) 2016/679 and Chapter 586 of the Laws of Malta (Data Protection Act).

### 7. Data Protection Officer

- 7.1. Transport Malta has a Data Protection Officer ("DPO") who is responsible for matters relating to privacy and data protection. The DPO can be reached at the above address or by email: [dataprotection.tm@transport.gov.mt](mailto:dataprotection.tm@transport.gov.mt)

### 8. Contacting us

- 8.1. Please address any questions, comments and requests regarding the application process to [cadpel.tm@transport.gov.mt](mailto:cadpel.tm@transport.gov.mt)
