Extension of quay at Id-Daħla ta' tas-Sliema in Il-Port ta' Marsamxett

The Ports and Yachting Directorate, Transport Malta notifies mariners that works will be carried out to extend part of the quay at I-Dahla ta' tas-Sliema in Il-Port ta' Marsamxett.

The works are scheduled to start on Thursday 30th September 2021 and expected to be completed by Thursday 30th June 2022.

Throughout the duration of the works, a silt curtain will be laid along the line joining the points A, B, C and D, approximately 20m from the shore, as shown on the attached chart.

The vessels "*Gold Dredger*" and "*Goldfinder*" will be participating in the extension works, therefore the area delineated by the imaginary line A, B, C, D and the intermediate coastline (as shown on attached chart) are to be considered as a working area. Only vessels involved in the works are permitted to enter.

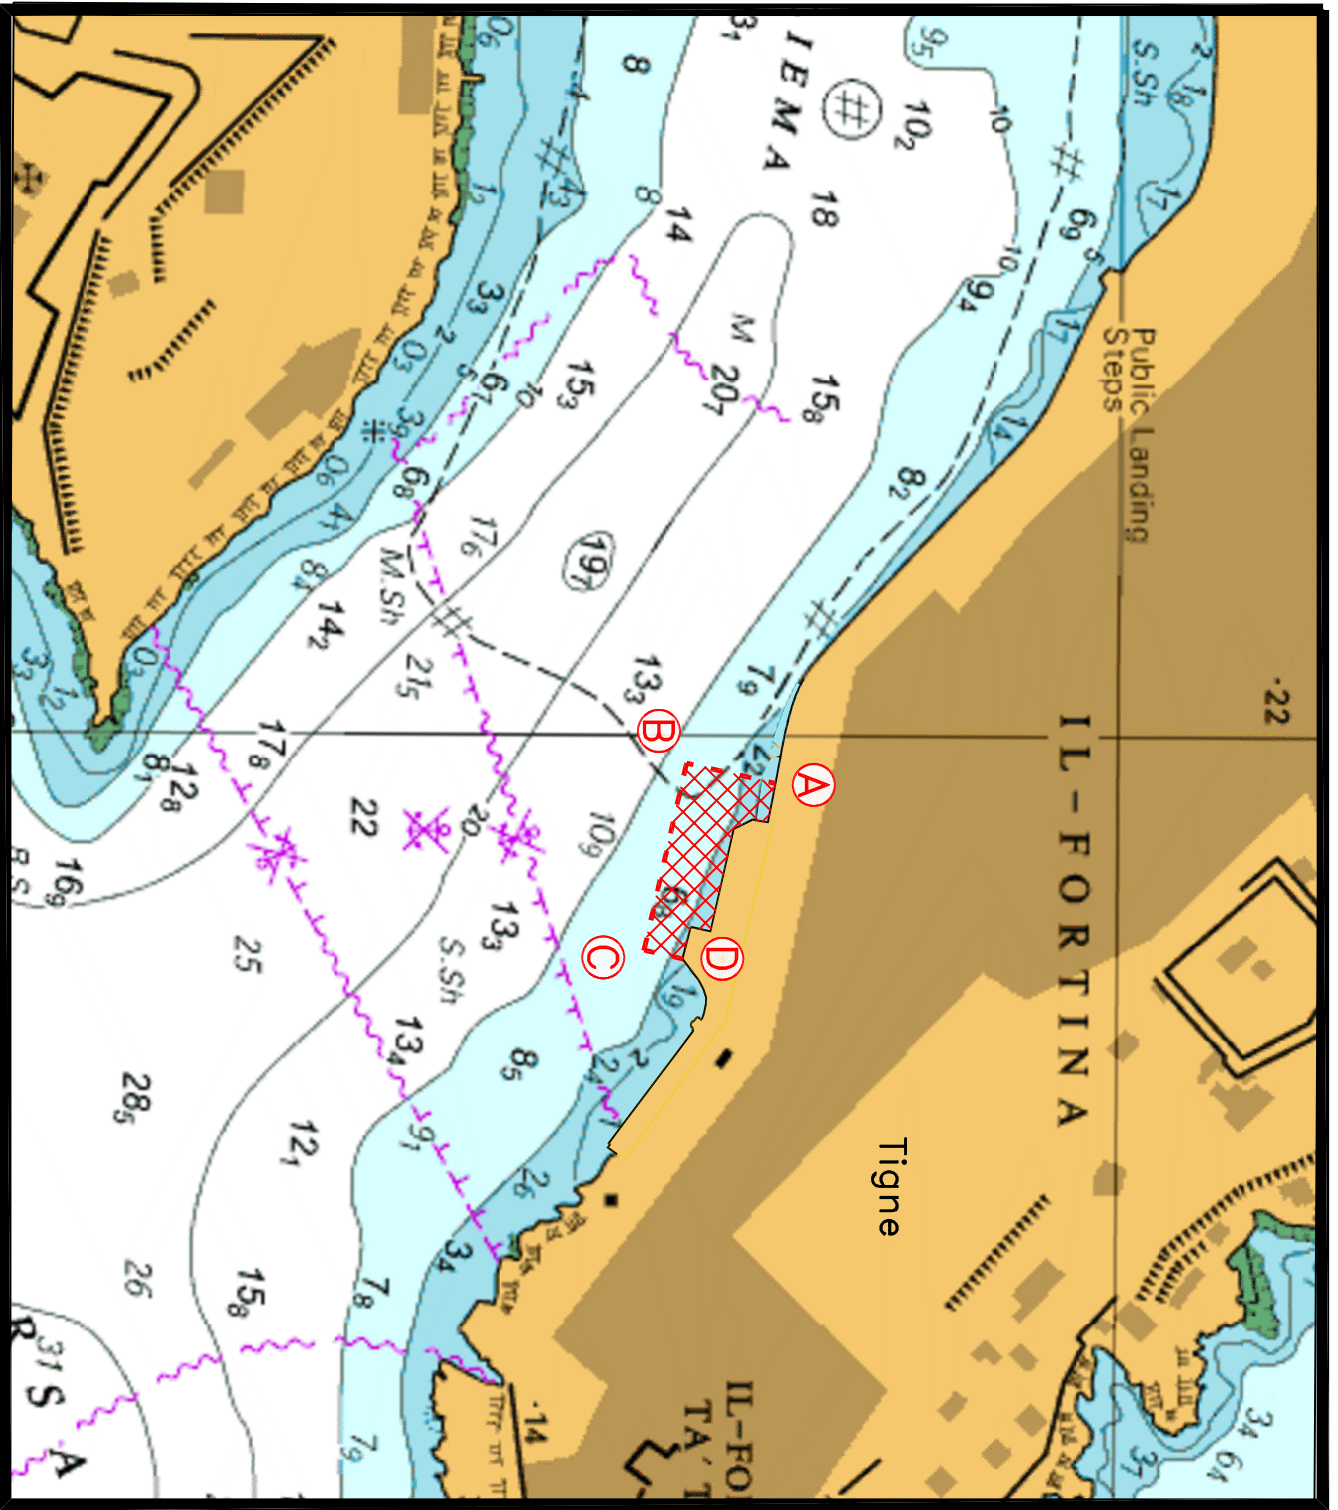

Marker buoys with lights will be placed in positions B and C to indicate the outer limit of the area.

Divers will be assisting in these works and will be displaying the International Code of Signals Flag "A".

Masters and vessel operators are instructed to cooperate with the contractor on site. They are to keep a sharp lookout, keep well clear and proceed at very slow speed (no wake) on the above-mentioned dates.

Moreover, any instructions given on VHF Channels **12** and **16** by Valletta Port Control (Valletta VTS) and/or by any enforcement agency on site, are to be complied with.

Chart affected: **BA 177**
