Resumption of repair works by Infrastructure Malta on Mgarr Quay edge - Gozo

The Ports and Yachting Directorate, Transport Malta, notifies mariners that repair works by Infrastructure Malta on the edge of the Mgarr Quay – Gozo, will be resumed.

The work will consist of repair works on the quay edge between points D to E and will commence on Tuesday 15th November 2022 and is expected to be completed by Wednesday 15th February 2023. For the duration of these works a silt curtain will be laid along the imaginary lines between D, C, F and E, as shown on attached chart. Due to the above, the berth along the points D to E will not be accessible.

The repair works will require the services of divers and of various vessels which may include barges and workboats. A working area of 20m from the silt curtain will therefore be required and is to be kept clear, at all times, when works are in operation.

Mariners operating in the area, are to seek information about operating restrictions from Transport Malta and coordinate with the contractors on site. Further details about these works can be obtained from Infrastructure Malta on info.im@infrastructuremalta.com.

All mariners are also advised to keep a sharp lookout, navigate with caution, and at very slow speed. They are to give the indicated areas a wide berth. Mariners are to cooperate with the requirements of the contractors and to comply with any instructions issued on VHF channel 10 by Mgarr Port Control, VHF channel 12 and/or 16 by Valletta VTS and by any Enforcement Personnel on site.
