Maintenance dredging work at Salina Bay

The Ports and Yachting Directorate, Transport Malta notifies mariners that maintenance dredging will be carried out at Salina Bay.

The dredging will be carried out within the area enclosed by the imaginary lines between the points A, B, C, D, and the intermediate coastline as shown hatched in magenta on the attached chart.

The works will commence with immediate effect and will continue until further notice.

The dredged material will be loaded onto the barge "Gold Dredger", when full, the barge will depart from the area to dump the material at the dumping area off Valletta in approximate position:

Position	Latitude (N)	Longitude (E)
	35° 55'.100	014° 34'.000

Due to this work, all vessels within the mentioned area and any others which may obstruct the safe entry and exit from the dredging area, are to be removed while the dredging is being carried out.

Mariners and owners of vessels are to navigate at very low speed (no wake) when navigating close to the area. They are to give way to the barge "Gold Dredger" and co-operate with the contractor on site.

All mariners are to comply with any instructions given on VHF Channel 12 and/or 16, by Valletta VTS and by any Enforcement Personnel on site.

Charts Affected: **BA 211**
